

1. Identification

Product Identifier Vapo Spray

Other means of identification

Product code CU-2370

Recommended use Solvent based dust mop treatment.

Recommended restrictions

Manufacturer information

Company name Chemical Universe, Inc.

Address 1133 Saline St.

North Kansas City, MO 64116

Professional use only.

Telephone (816) 471-3602 **Fax** (816) 474-3302

Emergency phone number PERS 24-hour Emergency (800) 633-8253

2. Hazard(s) Identification

Physical hazardsFlammable LiquidsCategory 4Health hazardsEye irritationCategory 2AAspiration HazardCategory 1

None

Environmental hazards Not classified.

OSHA defined hazards

Label elements

Signal word DANGER

Hazard statement Combustible liquid.

Causes serious eye irritation.

May be fatal if swallowed and enters airways.

Precautionary statement

Prevention Keep away from flames and hot surfaces. No smoking. Wear protective gloves/eye

protection/face protection. Wash hands and exposed skin thoroughly after handling.

Response In case of fire: Use water fog, foam or carbon dioxide (CO₂) to extinguish.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical

advice/attention.

IF SWALLOWED: Immediately call a POISON CENTER/doctor/medical professional. Do

NOT induce vomiting.

Storage Store in a well-ventilated place. Keep cool. Store locked up.

Disposal Dispose of contents/container in accordance with local/regional/national/international

regulations.

Hazard(s) not otherwise

classified (HNOC)

None.

Supplemental information None

3. Composition/information on ingredients

Mixture Component(s)		
Chemical name	CAS number	%
C9-C15 Cycloalkanes	Mixture	50-75
C9-C15 Alkanes	Mixture	10-20
Other components below reportable levels		1-20

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of

eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do

so. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. Get medical attention if symptoms occur. Only induce vomiting at the

Dermatitis. Rash. May cause an allergic skin reaction.

instruction of medical personnel.

Most important

symptoms/effects, acute and

delayed

Indication of immediate medical attention and special treatment needed

Provide general support measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to the hospital. Keep victim under observation. Symptoms may be delayed.

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Carbon dioxide (CO₂). Dry chemical powder, sand, or earth may be used

for small fires only.

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical

Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source or ignition and flash back. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for static discharge, use proper bonding and grounding procedures. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for

firefighters

fire.

inenginers

Fire-fighting

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if

Self-contained breathing apparatus and full protecting clothing must be worn in case of

equipment/instructions

you can do so without risk.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards

Flammable liquid and vapor.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Ensure adequate ventilation. Remove all sources of

ignition. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Eliminate all ignition sources. Use only non-sparking tools. Take precautionary measures against static discharge. Keep combustibles away from spilled material.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small spills: Absorb with earth, sand, or other non-combustible material and transfer to container for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions A

Avoid release to the open environment. Avoid discharge into surface drainage paths and other areas not consistent with package labeling.

7. Handling and storage

Precautions for safe handling Do not handle, store or open near an open flame, sources of heat or sources of ignition. Do

not smoke. Use explosion proof equipment and non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks and open flame. Ground/bond container and equipment. Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

No information.

Biological limit values

No information.

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

Individual protection measures, such as personal protective equipment

Eye/face protection Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection The use of gloves impervious to the specific material handled is advised to prevent skin

contact. Users should check with manufacturers to confirm the breakthrough performance of their products. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Suggested protective materials: Nitrile and PVC rubber.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is

recommended.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Material Name: Vapo Spray Page 3 of 7 SDS US

General hygiene considerations

When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical State Liquid. Color Colorless Odor Cherry

Odor threshold Not available. Not available. Melting/freezing point Not available.

Initial boiling point and

300-410°F (148.9-210°C) estimated.

boiling range

Flash point 150°F (66°C) estimated.

Evaporation rate Not available. **Flammability** Not available.

Flammability Limits

6% estimated. Upper Lower 0.8% estimated. Not available. Vapor pressure Vapor density Not available.

Specific gravity (water=1) 0.80 Insoluble. Solubility in water **Partition coefficient** Not available.

(n-octanol/water)

Auto-ignition temperature Not available. **Decomposition temperature** Not available. Not available. Viscosity

10. Stability and reactivity

Reactivity This product is stable and non-reactive under normal conditions of use. **Chemical stability** Material is stable under normal conditions. Store in a cool dark place.

Possibility of hazardous

reactions

Hazardous polymerization does not occur.

Conditions to avoid Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding

the flash point. Contact with incompatible materials.

Incompatible materials Oxidizing agents, stron mineralacids. Hazardous decomposition Carbon dioxide, carbon monoxide.

products

11. Toxicological information

Information on likely routes of exposure

Ingestion Expected to be low ingestion hazard. Inhalation Prolonged inhalation may be harmful.

Skin contact May cause mild skin irritation.

Eye contact Causes serious eye irritation. Wear eye/face protection.

SDS US Material Name: Vapo Spray Page 4 of 7

Symptoms related to the physical, chemical and toxicological characteristics Dermatitis, Rash.

Acute toxicity Not established.

Product Vapo Spray (CAS mi	xture)	
Hazard Classification	Route and Species	LD50
Acute	<i>Oral,</i> rat	>5,000 mg/kg (estimated)

^{*}Estimates for product may be based on additional component data not shown

Skin corrosion/irritation Prolonged skin contact may cause temporary irritation.

Serious eye damage/irritation Causes serious eye irritation.

Respiratory sensitization Not available. Skin sensitization Not available

Germ cell mutagenicity No data available to indicate product or any

components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity This product is not expected to be a carcinogen.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Reproductive toxicity This product is not expected to cause reproductive or

developmental effects.

Specific target organ toxicity - single exposure Not classified. Not classified. Specific target organ toxicity - repeated exposure

Aspiration hazard May be harmful or fatal if product enters airways.

12. Ecological information

Ecotoxicity

No data available. When used as prescribed, the components of this product do not pose substantive risk to stable aquatic environments. However, users should always avoid disposing of unused product into open waterways or stormwater management systems without prior consultation with regulatory authorities

Persistence and

degradability

Mobility in soil

No data available.

Bioaccumulative potential

Potential to bio-accumulation is expected to be low.

No data available. This class of chemical mixture is expected to exhibit limited mobility in saturated and semi-saturated soils. Due to oleophilic natural of a primary component, some level of phase separation can be expected with the oleophilic recoverable as a LNAPL

at the piezometric surface of the water table

Other adverse effects Harmful to aquatic life. May cause long lasting harmful effects to aquatic life. No other

adverse environmental effects known (i.e. ozone depleting substance, tropospheric ozone

precursor, greenhouse gas emission, endocrine disruptor or other deleterious

environmental effect)

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose

of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the

waste disposal company.

Waste from residues/unused

product

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner.

(see: Disposal instructions).

Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings

even after container is emptied.

14. Transport information

DOT Not regulated as dangerous goods for domestic highway transportation

Non-Domestic Highway Transportation and IATA Air Transport NA1993 Combustible liquid, n.o.s (Contains petroleum distillates), 3, PGIII

15. Regulatory information

US federal regulations

SARA 302 Extremely hazardous substance Not listed.

SARA 304 Emergency release notification Not listed.

SARA 311/312 Hazard Categories

Immediate Hazard - Yes
Delayed Hazard - No
Fire Hazard - Yes
Pressure Hazard - No
Reactivity Hazard - No

SARA 313 (TRI reporting) Not listed.

California Proposition 65 Ca

California Safe Drinking Water and Toxic Enforcement Act of 1986

This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins under California Proposition 65 at levels which would be subject to

threshold determination and Safe Harbor notification (1/2020)

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, and have been obtained from resources believed to be reliable. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information related only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified by the text.

Revision information

2/28/2020

Added flammable liquid category 4 (FP 150°F). General format update; Refine composition table, amend physical data; Update toxicology thresholds, language and environmental fate information; Text clarification amendments Sections 5,6,8,9 and 12. PPE recommendation updated; California Proposition 65 notice; HMIS and NFPA pictograms added.
